

Fairview Park Landscaping Duties

- Lawn (including right side of ditch going up the park driveway) will be maintained on a weekly basis during the growing season. During times of rainy or dry weather, mowing will resume as soon as weather permits
- All grass and other debris caused by contractor will be blown from all hard surface areas (i.e. sidewalks, curbs, parking areas)
- Debris will be removed before mowing and at each maintenance visit. Mowing height of the lawn will vary throughout the year, but no more than 1/3 of leaf blade will be removed at one visit
- All of the edges (bed edge and hard edge) will be edged to maintain a crisp and neat appearance
- Shrubbery will be pruned twice a year to maintain desired shape. Some shrubs will be pruned more often due to different growth rates of the various shrubs. Flowering shrubs will be maintained as needed per species of plant
- Ground covers will be monitored and maintained as needed
- Flower beds will be monitored on a weekly basis and hand weeded as needed
- Ornamental beds, parking lots, and sidewalks will be treated with a post emergent herbicide to ensure a clean appearance
- Leaf removal will be performed to provide a clean look. Leaves will be removed by all means necessary including raking, mowing and mulching
- Fire ant control (spray annually)
- Watering ornamental trees/shrubs
